History of the Common Council of the City of Indianapolis

Indianapolis was established as a town in 1821. It was at this time that a commission, appointed by the legislature, selected this location as a site for a seat of government of the State of Indiana.

The town of Indianapolis conducted its affairs pursuant to the general laws of the state until 1832. In this year the town was incorporated and was governed by a board of five trustees.

In 1838, pursuant to a special act of the legislature, Indianapolis was re-incorporated and placed in the hands of its first town council composed of a president and six members.

The common council continued in a large measure to control the affairs of Indianapolis as a town and as a city under various so-called charters or grants of the legislature until 1891.

Under a special act of the legislature of 1891 for the city of Indianapolis, a somewhat different form of government was established. While the council continued to exercise broad control over the city's affairs, various executive departments of the city were provided, such as Public Works, Public Safety, Public Parks and Public Health, conducted by boards appointed by the Mayor. These boards were granted specific powers and duties concerning the city's business previously exercised by the council through committees subject, however, in some cases to approval of the council in all matters of expenditure of money and appropriation of funds by the council.

For some time prior to 1891 the City of Indianapolis was divided into 25 wards represented by 25 ward councilmen. Their term of office was two years and they were eligible for re-election. At this time there was also a separate body operating in conjunction with the council called the Board of Aldermen, composed of ten Aldermen, representing five Aldermanic districts, two being elected from each district.

Under the 1891 act the Board of Aldermen was abolished and a common council of 21 members was established. Fifteen members were elected to represent 15 wards and six members were elected to represent the city at large.

This form of council continued to exist in Indianapolis under the general cities and towns act of 1905. The act of 1905, while often referred to as the Indianapolis Charter, is very largely a re-enactment

of the 1891 Indianapolis Charter, modified to make the Indianapolis system applicable to all classes of cities in the state. The 1905 law increased the term of Mayor and councilmen to four years and prohibited re-election.

In 1909 a novel councilmanic law for Indianapolis alone was passed by the legislature. This law limits the number of councilmen to nine. The law provides for the nomination by each party of six candidates, one from each of six councilmanic districts. In the election all of the voters of the city may vote for any nine candidates and the nine receiving the highest number of votes are elected. This law insures a minority representation in the Council of at least three members. In 1949 the legislature amended the statutes to permit councilmen to succeed themselves.

History of the City-County Council of the City of Indianapolis

In 1969 the legislature enacted a law, popularly known as the "Unigov Act," which consolidated the City and County into one governmental unit. The act further provided for the creation of an interim City-County Council which served as the legislative body for the City and County until the new Council was selected in November, 1971, and took office in January of 1972.

The act provided for the division of the County into twenty-five single member councilmanic districts, each district electing one resident from that district. In addition, there were four at-large councilmen, elected by voters of the entire county.

Unified Government of Indianapolis-Marion County is an attempt to make metropolitan government simpler, more functional and more responsive to citizens' needs. Under the new structure, six major departments replace the more than sixty which were in existence previously.

CITY-COUNTY SPECIAL RESOLUTIONS

CITY-COUNTY SPECIAL RESOLUTION NO. 4, 1970

Introduced by Councilman Egenes.

A RESOLUTION PLEDGING THE COOPERATION OF THE CITY OF INDIANAPOLIS WITH THE U. S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT IN CONDUCTING OPERATION BREAKTHROUGH

WHEREAS, the United States Department of Housing and Urban Development (hereinafter called HUD) is conducting BREAKTHROUGH to utilize modern techniques of production, marketing

and management in order to provide quality homes, in volume, for all income levels through cooperative efforts by private enterprise, labor and consumers, and by local, State and Federal governments, and

WHEREAS, in conducting BREAKTHROUGH, HUD will evaluate and approve proposals submitted by private industry for housing systems and construction concepts involving the application of new technology, financing methods, and management techniques, designed to supply aggregated markets with quality housing produced in volume and with economies achieved through larger scale production, more efficient management and improvement in systems of production, construction, land use, and financing, and

WHEREAS, a further essential phase of BREAKTHROUGH, consists of HUD selecting certain regional prototype sites throughout the country on which HUD-approved housing systems will be constructed for the purpose of testing, evaluating and demonstrating all aspects, including site layouts and development, costs, financing method, and market acceptability, as well as the physical quality of the housing and the construction process.

WHEREAS, HUD is expressly authorized by law to undertake housing research and studies cooperatively with industry and labor and public and private organizations, including the development and demonstration of the construction and operation of such housing and the promotion of acceptance of new and improved techniques. In connection with such undertakings and all HUD functions HUD is also expressly authorized by law, with the consent of the agency concerned, to utilize, contract with and act through any Federal, State or local public agency or instrumentality, educational institution or nonprofit agency or organization and is authorized to accept and utilize equipment, facilities or services of the employees of such agencies, instrumentalities or organizations.

WHEREAS, it is anticipated that some of the occupants of BREAKTHROUGH will be families or persons who cannot afford to live in decent, safe and sanitary housing without financial assistance, and the City of Indianapolis is expressly authorized by The Acts of 1969, Chapter 173, "An Act concerning reorganization and government in counties containing a city of the first class," to cooperate in connection with housing for such persons and families, including

cooperation by way of planning and replanning, zoning and rezoning, and making of exceptions from building regulations and ordinances and also has general authority to make exceptions from local requirements relating to land use and construction and occupancy of buildings and general authority to enter into agreements with the Federal Government.

WHEREAS, the City of Indianapolis desires to be selected by HUD as the location for one of the regional prototype sites, because participation in BREAKTHROUGH will provide it with assistance in solving its problems by affording opportunities to increase the supply of housing for all of its people, including low and moderate income families, to relieve urban congestion and resulting urban tensions, to increase its housing inventory subject to property taxes, to attract new industry and supporting businesses to provide new employment opportunities, to use and implement the results of metropolitan planning programs, and to share in a working partnership with the Federal and State governments and the private sector.

WHEREAS, the City of Indianapolis will further benefit from its participation in BREAKTHROUGH in that HUD will, if requested, provide FHA and public housing financing for BREAKTHROUGH units and provide other appropriate assistance under other HUD programs. It is anticipated that the prototype housing to be constructed will involve some variances from local requirements relating to land use, and construction and occupancy of buildings; that HUD will arrange with nationally recognized and professionally acceptable scientific and engineering organizations for an examination and validation of test results and test procedures before or after construction; and that HUD will certify as to the acceptability of the housing for occupancy and permanent use on the basis of sound performance standards.

WHEREAS, the City of Indianapolis desires that prototype housing in the BREAKTHROUGH program be constructed on the prototype site described as follows and recognizes that such construction cannot take place without variances from such local requirements:

DESCRIPTION OF SITE: The State Farm Site located north of 21st Street and west of Tibbs Avenue in the City of Indianapolis, Indiana.

NOW THEREFORE, BE IT RESOLVED BY THE CITY-COUNTY COUNCIL OF THE CITY OF INDIANAPOLIS:

Section 1. That for the purpose of enabling and inducing HUD, private and public organizations, manufacturers, builders, investors, and others who may be involved, to make commitments and expenditures of funds and property in connection with said BREAKTHROUGH housing on a BREAKTHROUGH prototype site, described above, the City of Indianapolis hereby states its intent to:

- (1) Furnish or cause to be furnished to BREAKTHROUGH and its occupants public services and facilities of the same character and to the same extent as are furnished from time to time, without cost or charge to other dwellings and inhabitants in the City.
- (2) Grant such variances from the building, housing and other codes and regulations and make such changes in zoning of the site and surrounding area as may be necessary to permit construction, alteration, occupancy, and disposal for intended use, of BREAKTHROUGH or any part thereof all in accordance with the plans, purposes, and objectives as prescribed or approved by HUD, and in accordance with standards adopted by HUD.
- (3) Assist and cooperate in the planning, undertaking, construction, operation, and disposal of BREAKTHROUGH by taking all other actions and providing all other services and facilities authorized by the Acts of 1969, Chapter 173 "An Act concerning reorganization and government in counties containing a city of the first class" and other applicable laws, as determined by HUD to be necessary.
- (4) Enter into appropriate agreements with HUD and others engaged in any phase of BREAKTHROUGH (and, to the extent it may lawfully do so, cause or assist others to enter into such agreements) to assist and cooperate as set forth in "(1)" through "(3)" above, which agreements shall contain, among others, provisions to the following effect:
 - (a) That in the event HUD should declare any of the parties in-

volved in BREAKTHROUGH to be in default, HUD shall have the right (i) to succeed to the benefits agreed to be provided under the agreement, (ii) to utilize the equipment, facilities, and services of employees of the City of Indianapolis, or the other party to such agreement, as the case may be, to carry out the obligations thereunder, and (iii) to incur such costs and expenses as may be necessary to secure such benefits under the agreement and deduct the amount thereof from any amounts otherwise payable by the Federal Government to the City of Indianapolis, or the other party to such agreement, as the case may be.

- (b) That in the event HUD finds it necessary to take possession or title to BREAKTHROUGH or any part thereof, the City of Indianapolis will give full recognition to any transfer of possession or title and will cooperate thereafter with HUD in the execution, operation, and disposal of BREAKTHROUGH.
- (c) That the agreement shall not be abrogated or modified without the consent of the Federal Government or its successors in interest so long as any contract for loans, mortgage insurance, or other financial assistance, or any property interest by the Federal Government, with respect to BREAKTHROUGH or any part thereof, remains in force and effect.

Section 2. This resolution shall be in full force and effect from and after its passage.

Which was read for the first time and referred to the Committee on Metropolitan Development.

WHEREAS, on-street parking is a major cause of traffic accidents thus resulting in many injuries, some fatalities and much property damage; and

WHEREAS, on-street parking reduces the ability of a street to accommodate traffic flow resulting in serious congestion and delays to traffic; and

WHEREAS, the cost of providing on-street parking is often more costly than the provision of such necessary facilities off-street (where hazardous conflicts with moving traffic are minimized); and

4. The conflicting interests of the abutting property owners and traffic needs shall be considered by the Department before recommending the removal of on-street parking. Where the Department shall determine on-street parking should be removed, the Department shall recommend the effective date of the Ordinance.
5. The Department of Transportation will provide leadership and guidance in the development of off-street parking facilities where required, to replace on-street parking; but the cost of providing such facilities is primarily the responsibility of those who benefit from them.

4. A general description of physical characteristics of roadway (number and width of lanes, median dividers, curbs, etc.).

The foregoing general information shall be presented to the Transportation Board, and after that Board's approval, to the Metropolitan Development Commission for review and approval, before any city funds are expended on any Project, other than such expenditures as may be necessary in order to acquire the information above.

After the Metropolitan Development Commission has approved the above-described plans, the Department of Transportation may proceed with its procedures for final approval of any Project at any time within one year.

B. Approval of Transportation Board and City-County Council.

Separate cost estimates shall be included for Engineering, Land Acquisition, and actual Construction, with such further breakdown as Director of Transportation shall think best.

When a proposed "Official Thoroughfare Improvement Program" is completed to the satisfaction of the Director of Transportation, he shall present said proposed Program to the Transportation Board. The following explicit provisions of the "Unigov" Act shall then be followed in regard to such proposed Program.

Sec. 1005. Resolution on Projects of the District. Whenever the Transportation Board shall determine that it is necessary for the general welfare of the persons residing within the Metropolitan Thoroughfare District and that it will be of public utility and benefit to the property in said district to undertake and carry out any project of construction, reconstruction or operation upon thoroughfares within the District, they shall adopt a resolution of the necessity of such project and the purpose of the Department of Transportation to proceed therewith. The Transportation Board, as a part of such resolution, shall adopt the plans and specifications proposed for the entire project, and shall determine the estimated cost of all work and all acquisitions necessary to carry out such project.

Sec. 1006. Notice of the Resolution. The Resolution plans and estimates, and all other matters included with the resolution shall be filed and opened to inspection by the public at the office of the Department of Transportation. The projects authorized may be modified by the Board if it deems such modification necessary to carry out the purpose and intent of the declaration and resolution so long as the modifications do not increase the estimate of the total cost of the project as adopted in the original resolution. Section 4. Licenses and Permits Generally. Each person required to obtain a license or permit, under the provisions of Section 3, shall apply for such license or permit on forms provided by the Department of Public Safety, and pay the applicable fee, as herein-after set out, to the Department of Public Safety or its agents. Each Kennel, Pet Shop and Stable License shall expire twelve (12) months from the date of its issuance and require prior to its issuance or renewal payment of a fee in the amount of \$50.00. Animal Exhibition and Rodeo Permits shall be effective only for the period specified in such permit, not to exceed thirty (30) days. Dog licenses shall expire in accordance with the provisions of Section 5 and not more than twelve (12) months after their issuance. Any person contracting with the Department of Public Safety to accept on behalf of said Department applications and fees for dog licenses may add a \$0.50 service charge to the applicable fee for each such license, which \$0.50 charge may be retained by such contractor to help defray the expense of rendering such service. Upon the issuance of a dog license, a durable license tag shall be issued, which tag shall be with the dog at all times. It shall be

unlawful for a person other than the owner of the dog or the City, its Departments, agents or employees, to remove such tag. The death of a dog within the City shall be reported by its owner or a person finding such dog to the Department of Public Safety, together with the dog's license tag number, if any. Any person so reporting may request the removal of such dog by the Department which shall promptly comply with such request.

Section 11. Effective Date. The effective dates of the licensing and permit provisions of this Article II shall be January 1, 1971. All kennel, pet shop and stable licenses issued prior to that date shall be dated January 1, 1971.

ARTICLE III

Restraint and Impoundment of Animals

Section 12. Animals at Large, Restraint and Reporting. Keepers and owners of animals shall not permit any animals as are kept or owned by them, as the case may be, to be at large within the City. All female animals in heat shall be confined in a secure enclosure and in such a manner as not to become a nuisance. The keeper or owner of a fierce or dangerous or vicious animal shall not permit such animal to leave its enclosure unless the animal is securely muzzled or caged. All persons taking up any animal at large within the City shall notify the Department of Public Safety or one of its agents within forty-eight (48) hours thereafter. A person whose

motor vehicle strikes a domestic animal within the City shall promptly report such occurrence to the Department of Public Safety, together with a description of the animal struck, the location of the striking and an estimate as to the condition of the animal after the striking. Such person shall not be required to report his name, as the only purpose of this requirement is to aid the stricken animal and notify its owners, if any.

Section 13. Impoundment and Disposition of Animals. Animals found at large in violation of Section 12 shall be captured and impounded. Animals so impounded shall, if claimed by their owners, be returned to such owners upon compliance with the provisions of Section 14. If not claimed by their owners, such animals shall be confined by the impounding authority in a humane manner for a period after capture of not less than three (3) days. Thereafter, animals not so claimed may be kept or otherwise disposed of, in the discretion of the impounding authority, but consistent with such provisions as the Safety Board or Department of Public Safety shall make regarding the capture, impounding, sale and destruction of animals.

The City may contract with a person, or any number of persons, for the disposal of animals impounded and unclaimed for longer than three (3) days, and any animals transferred to a person so contracting with the City shall thereafter be the property solely of such contractor. Such contract or contracts may provide for the retention by the contractor of any funds received in payment for animals sold to other persons, in order to help cover such contractor's expenses of rendering its services. No animals, however, shall be disposed of by any such contractor for purposes of experimentation by use of such animals. Further, no unspayed female dog or cat shall be sold or given away unless the prospective owner shall agree at his expense to have such female spayed. Notwithstanding the foregoing, injured or diseased animals need not be retained three (3) days, but may be disposed of at any time in the discretion of the impounding authority. When the owner of a captured animal is known, such animal need not be impounded, but may be released to its owner upon payment of any applicable fees and fines, under the provisions of this ordinance, and the application for a license, if required. Upon the impounding of an animal, a reasonable attempt to notify and inform the owner of such animal of the requirements for regaining custody of the animal shall be made. Notwithstanding the foregoing, an animal impounded for being a nuisance shall be

returned to its owner only if the impounding authority determines that such owner can and will control such animal in such a way as not to be a nuisance. If the impounding authority concludes that such owner cannot or will not control his animal so as not to be a nuisance, the impounding authority shall dispose of such animal in the same manner as if such animal were unclaimed for three (3) days or more.

Section 14. Release to Owners of Impounded Animals. The owner of an impounded dog may obtain the release of such dog upon compliance with the license provisions of Section 5 and such other applicable provisions as the Safety Board may impose, and the payment of the applicable impoundment fee and any other fees and fines as are applicable. Any other impounded animal may be reclaimed by its owner upon the payment of the applicable impoundment fee and any other applicable fees and fines. However, any impounded animal not reclaimed by its owner within three (3) days after its capture may be disposed of by the impounding authority, pursuant to Section 13.

Section 15. Impoundment Fees. Impoundment fees for animals impounded shall be \$3.00 for each dog, plus \$2.00 for each day of impoundment or fraction thereof; \$1.00 for each cat or other small animal, plus \$0.50 for each day of impoundment or fraction thereof; and \$20.00 for any large animal, other than a dog, plus \$2.00 for each day of impoundment or fraction thereof. Impoundment fees shall be collected by and paid to the impounding authority, which shall remit such funds to the Division of Finance of the Department of Administration of the City. Dear Dave:

I have had the opportunity to review in some detail the proposed Title 8 of the Municipal Ordinance presented at the May 7th meeting of the Metropolitan Development Commission. With the exception of a few minor corrections which were relayed to your office today by telephone, I am pleased to offer the endorsement and support of the architectural profession to all portions of the document which are within our areas of competency.

As I noted at yesterday's meeting, we would have preferred that the apartment fire safety provisions contained in the recent Ad-

ministrative Building Council directive be specifically referred to in Chapter 2, but so long as that clarification by ABC remains in full force and effect, we are willing to accept this as a legitimate compromise without endangering public safety. However, should that clarification be repealed or otherwise negated, then we would feel that our responsibility to the public would mandate our initiation of corrective action through the Metropolitan Development Commission.

In offering this endorsement, I am certain that I speak for those architects who worked on the Task Force, and I would also speak for them in conveying to you, the Commission, your assistants and staff, and the legal department, our deep appreciation and acknowledgement of the service accorded us, the construction industry and City of Indianapolis.

We look forward to a continuing relationship with you and the Commission, and assure you of our continuing support.

Cordially,

Dear Mr. Scholl:

The deletion of Item 8-1517—Chapter 15 from proposal—Title 8 Building Code and the equalization of fees for Electrical, Plumbing and Heating and Air-Conditioning permits modifies the above mentioned Building Code sufficiently to be acceptable to the Electric League of Indianapolis. Therefore, on behalf of the Electric League

of Indianapolis, I endorse the proposed code in its present form for presentation to the City Council.

Dear Sir:

Fire Prevention and Fire Safety should be of great concern to everyone, but, unfortunately this has not been the case in Indianapolis because our newly adopted Fire Prevention Inspection Program shows many buildings in our city that are without the minimum built-in Fire Safety appliances that the law requires. Code enforcement, in years past, has apparently lacked something to have caused this serious safety problem.

The Bureau of Fire Prevention is without an ordinance that would give the Bureau jurisdiction to enforce State Administrative Building Rules and Regulations if these state laws were being violated. In the past, the A.B.C. has been without an on-sight enforcement, which is a part of the reason why, Fire Safety is so poorly represented in some of our most modern buildings.

General Ordinance No. 81, 1970 would help to correct this need. The saving of life and property from destructive fire is our work, we need the most modern tools that present day man can devise to perform this work efficiently and even then some lives will be lost and some property destroyed. This Bureau would use Ordinance No. 81 to protect life and property. We strongly urge its passage.

Respectfully,

Donald E. Bollinger,
Chief Director of Fire Prevention

WHEREAS, the City-County Council is committed to preventing any increase in the 1971 tax levy for civil government; and

WHEREAS, the City-County Council is concerned by the action of the State Board of Tax Commissioners in increasing the statutory limitation, thereby authorizing enormous increases in the property taxes levied by various school districts in Marion County; and

WHEREAS, the City-County Council earnestly solicits the efforts of the School Boards of Marion County to resist proposals to raise property tax levies for schools; and

WHEREAS, the City-County Council recognizes that it is not within the purview of their authority to control the school tax levies and recognizes that each school board must bear sole responsibility for the tax rates in their respective school district; and

WHEREAS, any increase in the property tax increases the burden upon persons on fixed incomes and is a significant deterrent to the efforts of the community to attract new business and industry and is adverse to the interests of the general public.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY-COUNTY COUNCIL OF INDIANAPOLIS, AND OF MARION COUNTY:

That the City-County Council petitions each School Board within Marion County to join with them in their efforts to prevent increases in the 1971 property tax levies in Indianapolis and Marion County.

7-2405. Issuance of License.—Prior to the issuance of a license under this chapter, the Division of Code Enforcement shall determine if the commercial parking facility complies with all of the provisions of this chapter, other applicable City ordinance provisions and applicable zoning ordinances and restrictions. If all such provisions and restrictions are met, the license fee paid and proper application has been made, the City Controller shall issue a license for a period of one (1) year.

7-2406. Revocation of License.—The City Controller may revoke any commercial parking facility license if upon a hearing and investigation after at least ten days written notice of the time and place of hearing, it finds:

This provision shall not apply where motor vehicles are stored or parked on a weekly or monthly fee basis.

7-2408. Bond or Liability Insurance Required.—Every application for a license hereunder shall be accompanied by a bond, approved as to form by the Corporation Council of the City, executed by a bonding or surety company authorized to do business in the State of Indiana, in the penal sum of Twenty-five Thousand Dollars (\$25,000.00), conditioned upon the payment by the proprietor of any and all final judgments for damages resulting to persons or property including the theft of any motor vehicle or any part or accessory thereof, arising out of the operation or maintenance of any commercial parking facility. Such bond shall run to the City of Indianapolis for the benefit of any person who may receive injuries, and for the benefit of any person as defined in this ordinance who may claim redress for property damage or theft resulting from the operation or maintenance of such commercial parking facility. Such bond shall remain in full force and effect for the full period of time for which the license is effective. A liability insurance policy issued by an insurance company authorized to do business in the State of Indiana conforming to the requirement of this section, may be permitted in lieu of a bond.

7-2409. Notification of Claims for Damage or Loss.—Every proprietor shall within five (5) days notify the Police Department of every claim made by reason of loss, theft, or conversion, or any damage or injury to person or property from the operation of a commercial parking facility, and occurring during the hours said premises are regularly open for business. The obligation created by this section shall not extend beyond the regular posted hours of attendance as posted upon the premises and printed upon the regular receipt furnished to the owner or person parking said motor vehicle.

7-2410. Notification to Police of Unclaimed Vehicles.—Every proprietor shall immediately notify the Police Department, in writing, of the license number, make, and name of the owner, if known to him, of every motor vehicle left in a commercial parking facility for a period of five (5) days (consecutive) beyond the time when the owner was due to claim it.

7-2411. Unauthorized Use or Removal of Motor Vehicle.—It shall be unlawful for any proprietor of a commercial parking facility to make or permit any use for any purpose whatsoever of any vehicle in such place, unless the use shall have first been expressly authorized by the owner or person having control of such motor vehicle. No proprietor shall, during the hours said are regularly open to

business, transfer or cause to be moved or transferred, any parked vehicle through or upon the streets or alleys of the City of Indianapolis, without the express authorization of the owner or person having control of such motor vehicle.

7-2412. Vehicles' Care after Closing Time.—When motor vehicles are not called for at closing time, the attendant shall leave the keys and parking coupon for safekeeping at a place within a reasonable distance of the commercial parking facility with an employee or agent of the proprietor.

- a. Each commercial parking facility shall have at least one entrance and one exit (which may or may not be combined) which shall be adequate to afford safe and efficient ingress and egress to the commercial parking facility.
- b. Each commercial parking facility shall have a motor vehicle reservoir area. Such motor vehicle reservoir area shall have minimum dimensions of 40' in length and 20' in width and shall be conspicuously marked with pavement stripes. - b. The floor of every parking facility shall be covered with concrete, brick, stone slab, or asphaltic pavement, or a similar durable and dust free surface which meets the approval of the Division of Code Enforcement. The floor of the commercial parking facility shall be such as to provide a smooth surface for parking and shall be free of depressions, gaps and holes and similar surface aberrations. Upon due cause shown the City Controller, upon written recommendation of the Division of Code Enforcement may allow the use, for a period of time not exceeding six (6) months after the commercial parking facility is opened, of a commercial parking facility which does not conform to this requirement.
- c. Parking facilities shall be maintained in a condition free of weeds, dirt, trash and debris.
- d. Every commercial parking facility surface shall be graded and drained in such a manner that there will be no free flow of water onto adjacent properties or sidewalks.
- e. Except for places of entrance and exit, every commercial parking facility shall be completely enclosed by barriers, bumper guards, or wheel guards so located that no part of the parked vehicles will extend beyond the boundary of the established commercial parking area. When said lot abuts on a building, barriers, bumper guards or wheel guards shall be erected as provided in this section to prevent motor vehicles from striking such buildings.
- f. Lighting facilities used to illuminate the commercial parking facility shall be so located, shielded and directed upon the parking area that they do not glare onto or interfere with street traffic, adjacent buildings, or adjacent uses.
- g. The commercial parking facility shall not be used for dismantling or wrecking of any motor vehicle, equipment or materials, or the storage of any junk motor vehicle.

- h. It shall be unlawful for any person to distribute literature or place handbills in or upon any motor vehicle while parked in a commercial parking facility.

7-2416. Parking Spaces and Aisles. —

- a. Parking or storage of motor vehicles shall be allowed only in conspicuously marked parking spaces which shall measure not less than nine (9) feet in width (measured perpendicularly from the sides of the parking space) and twenty (20) feet in length, provided, however, that this requirement shall not apply to commercial parking facilities with attendant parking. On good cause shown the Controller upon the recommendation in writing of the Division of Code Enforcement may allow the use, for a period not exceeding six (6) months after the commercial parking facility is opened, of a parking facility which does not conform to this parking space requirement.
- b. Each off-street parking space shall open directly upon an aisle of such width and design as to provide safe and efficient means of vehicular access to such parking space, provided, however, that this requirement shall not apply to commercial parking facilities with attendant parking.

7-2417. Fire Protection. —

- a. Every commercial parking facility shall be equipped with proper fire extinguishing apparatus subject to the approval of the Fire Department of the City of Indianapolis, and all motor vehicles shall be so parked or stored that they may be reached readily in case of fire or other emergency.

7-2418. Time for Compliance.—All commercial parking facilities shall, unless allowed a different period of time by any other provision in this chapter, be given ninety (90) days from the effective date of this ordinance to file plans for approval, and until January 1, 1970, for full compliance with the terms of this ordinance.

Mr. Thomas C. Hasbrook, President

241 City-County Building
Indianapolis, Indiana 46204

Dear Mr. President:

It has been my intention to resign from the Transportation Board as soon as it was my feeling that the Department was at an efficient state of operation.

Dick Wetzel has the Department well in hand at this time and all constraints to a successful and efficient operation are now removed. His engineering staff is up to full strength, and the other divisions within the Department are appropriately and properly staffed.

In spite of the organizational hurdles experienced by a first-year operation, the Transportation Department has an impressive list of accomplishments thus far this year, and a well-formulated plan for the remainder of the year. A total of 140 linear miles of streets have been resurfaced this year, far surpassing resurfacing programs of previous years. By the end of this year, close to 4 million dollars worth of work on new construction projects will have been completed; and approximately 2.5 million dollars will be the year's total for maintenance and construction of bridges in the Consolidated City.

The Department's progressive program for the central business district is well under way with much of the work already evident. 6.73 miles of streets and alleys in the downtown one-mile square area have been resurfaced, and curb and sidewalk improvements are now in progress. The end result of the curb and sidewalk program will be that all curbs and sidewalks in the downtown one-mile square area will conform to the Department's standards.

Also, the Residential Street Improvement Program which I was interested in promoting is being ably carried out. To date, a total of 31 projects have been initiated under this program.

Therefore, I feel that it is time for me to resign from the Transportation Board and assume a completely legislative attitude with ref-

erence to the Department of Transportation as I had indicated in December of last year it was my intent to do.

I will continue to have an active interest in the Department of Transportation and, because of my prejudices in favor of progressive development of our streets and transportation systems, will probably continue to be an avowed advocate for this Department.

Respectfully submitted,

Bill
WILLIAM K. BYRUM
Councilman

(2) Vacation leave. Time off granted for annual vacation, or for other personal reasons which are not included in any other leave category defined in this section.

(11) Part-time Employee. An employee who is employed on a year round basis, for but less than the average work week of the office in which such employee works.

3-102. Policy as to leaves of absences of employees.—

(1) Although the policy of leaves of absence, with pay, for regular vacations by employees is hereby approved, the granting of any leave of absence is the responsibility of the officers concerned and should be authorized only when due and justifiable. The provisions of this chapter are declared to be permissive within the proper maximum limits prescribed hereinafter to the granting of leaves of absence and not to indicate or limit the discretionary policy and powers of any office in regard to any such leaves, and the respective officers shall determine the leave policies for their offices, guided by the maximum hereby indicated. The provisions of this chapter are designed to establish a basis for uniformity and equality in the granting of leaves of absence to all employees and to strengthen the authority of officers in respect thereto.

(2) The mayor or any elected county official is hereby granted authority to authorize any officer or office to extend the maximum leaves of absence hereinafter listed for certain specific individuals, or classes of employees when the nature of the work and normal em-

ployment practices make such action advisable for health reasons, or other grounds deemed reasonable by him so justify any exemptions.

(3) The respective offices, departments, divisions, bureaus, and commission of this city and county hereinafter all included for brevity in the words "officer," or "officers," are authorized to certify payrolls when leave is granted to employees, as hereinafter provided.

3-103. Suggested leave schedules.—Leave allowances are indicated in the categories listed below. All leave periods are for the total time in any calendar year. It is recommended that vacation leave be taken for not less than five (5) consecutive work days, or forty (40) work hours. Any employee transferring between city and county officers and departments, shall be considered to be in continued employment for leave purposes and such transfer shall not effect the employees status as to accrued leave or eligibility for leave. The following categories classify each type of leave in any calendar year, to-wit:

A. Vacation Leave

1. (a) Employees with less than ten (10) years total employment shall receive ten (10) vacation leave days.

(b) Employees with ten (10) or more years total employment shall receive fifteen (15) vacation leave days.

(c) Employees with twenty (20) or more years total employment shall receive twenty (20) vacation leave days.

(d) One full day's absence shall be considered eight (8) leave (work) hours in all cases.

2. Vacation leave shall accrue monthly at the rate of five-sixths ($5/6$) leave day per month for employees eligible under 1. (a); one and one-quarter ($1\frac{1}{4}$) leave days per month for employees eligible under 1. (b); and one and two-thirds ($1\frac{2}{3}$) leave days per month for employees eligible under 1. (c).

3. In the first year of service no employee shall take any vacation leave until after six (6) months of continuous employment. Requests for unaccrued vacation leave must be made in writing to the department or division head or office holder.

4. An employee may select the dates of his individual vacation leave, subject to the approval of the supervisor based on work needs of the office, department or division.

5. Part-time employees are entitled to leave; however, leave pay for these employees shall not exceed the rate of their average weekly or monthly salary during the previous six (6) months employment.

6. No leave accrues while employee is on status of leave without pay.

7. Vacation leave taken for five or more consecutive working days shall be charged at the rate of five (5) leave days per calendar week, without regard to length of the work week in the particular department.

8. Vacation leave may not be accrued beyond a maximum of thirty (30) leave days. Vacation leave shall be taken within the calendar year that it is accrued; except that, at the discretion of the official, up to one half year's earned vacation leave may be carried over from one year to the next year.

B. Sick leave

1. All employees shall be entitled to ten (10) days, eighty (80) hours sick leave per year.

2. Sick leave shall accrue at the rate of five-sixths (5/6) day per month.

3. Sick leave cannot be used prior to accrual.

4. Sick leave may accrue without limit.

5. The burden of proof rests with the employee to convince his supervisor that such leave is justifiable. The supervisor may demand a medical certificate or other evidence of illness as requested.

6. In case of malingering, supervisor may designate such leave as vacation leave, leave without pay, or as grounds for dismissal.

C. Military Leave

All employees who are members of the Indiana National Guard or of the reserve components of the army, navy, marine, coast guard, air force or other armed forces of the United States, or who are subject to and are called upon for any military or war duties, under the provisions of any state or federal statute, shall be entitled to a leave of absence from their respective government duties for any periods of time they are so called for and are engaged in any active duties; the first fifteen (15) days of such military leave shall be without loss of time or regular pay; persons who are called to active duty shall be entitled to resume employment after such active duty period shall have ended.

D. Court Leave

Time off with regular pay shall be granted an employee who is summoned for jury duty, or as a witness in an action in any court. Any jury duty or witness fee, so received shall be paid to the controller or county auditor, as the case may be, by such employee and be deposited in the general fund of the city or county.

E. Leave Without Pay

Time off may be granted to an employee for any services for which pay is not authorized. This leave may be authorized when the supervisor determined that no other leave is relevant to the purpose of, or is sufficient for the length of the desired leave. A maximum of ninety (90) days shall be allowed in any one calendar year, except in cases where employees are called to active duty with any of the armed forces aforesaid.

F. Compensatory Leave

May be granted to an employee for time worked in his employment for the city or county beyond the normal work week of the office involved and for which no remuneration is paid. The policy respecting such compensatory leave is to be determined by each officer and in every such instance by the requirements and circumstances of each office, and full discretion is granted therein to all officers and supervisors.

G. Holidays

Legal holidays, as defined in the statutes of the State of Indiana and applicable to municipalities and counties shall be considered holidays for all employees, with full pay for such days, with the exception of those who are employed in functions which must necessarily be continued at all times. For such employees a policy of compensatory leave or overtime, for work on such holidays, shall be determined by the competent authority of each office. The mayor, however, shall have authority to designate any other day as a holiday for employees of the city; during which times all work for the city may be suspended, except for necessary duties which shall continue to be performed by those employees so engaged, or by those so directed by the mayor.

H. Holiday Pay—Hourly Workers

Hourly workers shall be paid for holiday time and shall be paid also "straight time" in addition to holiday time for any and all time authorized for work on a holiday, providing the employee works a regular work day before and after the holiday.

I. Death Leave

Upon the death of a member of the immediate family, i.e., spouse, mother, father, son, daughter, brother, or sister, an employee shall be entitled to receive a maximum for four (4) working days off with pay. These days must, however, be charged against either sick leave or vacation leave accrued and unused at the end of the calendar year. Exceptions to this policy may be granted only by the mayor, or county officer, as the case may be.

3-104. Temporary and occupational leaves.—The head of any office may also approve temporary leaves and occasional leaves, with pay, to permit employees to attend conventions, or short training sessions, or to observe operations in other cities or counties deemed beneficial to government, or for other purposes approved by such officer. Leaves for these purposes shall be granted in addition to the aforesaid leave benefits listed in this chapter; but shall not be so granted to exceed ten additional leave days in any calendar year. The mayor or county officer may grant such leaves, with pay, to

any employee in any instances and for any reasons he deems sufficient.

CHAPTER 2

GENERAL PROVISIONS APPLICABLE TO ALL OFFICES

3-201. Positions, salaries, and compensations.—Unless and except as the number and positions and the salaries and compensation of any or all officers and employees of this city or county are fixed by statute, or by this code, or other ordinances, all thereof shall be established and continued as set up and provided for in each annual budget of the city and county for various departments, divisions, offices, and officers.

3-202. Maps and records.—Any department, division, or official having control of any maps, plans, or other records, may furnish certified copies thereof to anyone desiring same, under such reasonable rules and regulations and at such reasonable prices as may be prescribed thereby. All monies so received from any such sources shall be paid over to the controller, and become a part of the city general fund or county general fund, as the case may be.

3-203. Assignment of wages.—(1) The assignment of future wages to become due to any employee from this city, or from any department thereof, is hereby prohibited and no agreement shall be valid that relieves the city, or of any department thereof, from the obligation to pay such employee the full amount due or to become due therefrom.

(2) All employees of said city, or of any department thereof, agree that upon accepting employment with said city, or with any department thereof, and as a condition precedent, they will not assign, transfer, or sell any future wages to become due to any such employee or employees from the city, or from any department thereof. Any violation thereof shall be cause for discharge.

3-302. The Director of Administration is specifically authorized to prepare and publish employee manuals and other regulations to advise employees of personnel procedures, provided such actions are not inconsistent with the provisions of this chapter.

Section 13-102. General Prohibition Against Encroachments. No person, firm or corporation shall maintain any encroachment against any real, personal or mixed properties, rights, possessions or things owned or controlled by the City of Indianapolis without first having received a written license so to do from the Controller in accordance with the provisions of this ordinance.

Section 13-103. Procedure to Obtain License. Any person, firm or corporation who hereafter shall desire to maintain an encroachment against any properties, real, personal, mixed or rights, possessions or things, owned or controlled by the City of Indianapolis shall file his, her, their or its petition with department responsible for the use, control or maintenance of such property, on such forms as the Controller may prescribe, requesting of such department that it approves license permitting said encroachment, specifically identifying the property or properties, rights, possession or things, affected and outlining the circumstances giving rise to the need for such license.

Upon the filing of a petition, the department shall cause an investigation of the request and of the circumstances enumerated in said petition to be made. Upon completion of such investigation, the department shall recommend to the controller such license be either granted or denied and if granted, the term and conditions of such license.

All licenses, unless granted for a lesser determinate period, shall be for a term of twelve months dating from the date of their issuance. In the event of unfavorable action on any petition Fifty Dollars (\$50.00) of the application fee shall be refunded with the remainder being retained and applied to defer the administrative expense incurred in investigating and processing the petition.

In any case in which a license to encroach is granted and the title to a single-family residential dwelling-house is directly involved, 50% of the initial application fee shall be applied toward future renewal fee.

In case of a petition which requests the placing of more than one movable encroachment of like kind, at various locations within the City, one petition may be made to cover more than one similar encroachment, but the application fee shall be One Hundred Dollars (\$100) plus One Dollar (\$1) for each encroachment requested and the annual license fee shall be Twenty-five Dollars (\$25) plus One Dollar (\$1) for each encroachment.

For the calendar year 1971	\$.0085 per pound, BOD

$$S = V_s \times .00075 \times 8.34 (\$0.0170 \text{ (BOD-350)} - \$0.0244 \text{ (S.S. —400)})$$

S = Strength charge in dollars

V_s = Sewage volume in hundred cubic feet

.00075 = Hundred cubic feet to million gallons

8.34 = Pounds per gallon of water

\$0.0085 = Unit charge for BOD in dollars per pound for 1971*

BOD = BOD strength index of parts per million by weight

Section 4. Charges:

The computation of the total charges shall be by the application of the volume rate formula and the strength rate formula to the monthly industrial waste discharges into the Indianapolis Sewerage system.

Section 5. Billing and Verification

Each such person subject to the rate as defined in Section 2 shall report to the Director by the 10th day of the following month an estimate of the volume discharged the prior month and a representative value of the strength of the waste, BOD and Suspended Solids. All measurements, tests and analyses of the characteristics of such waste shall be determined in accordance with latest edition of "Standard Methods for the Examination of Water and Sewage" as published jointly by the American Public Health Association and the Water Pollution Control Federation or by other methods generally accepted under established sanitary engineering practices and approved by the Director. The reports submitted shall be subject to verification by the Director but may serve as the basis for billing with all necessary adjustments in the amounts to be made after verification. In the event an analysis and volume of the industrial waste is not furnished to the Director by the aforementioned time, the charges shall be based upon estimates made by the Director, as provided in Section 6.

The Director shall have the right to enter upon the land of the person and to set up such equipment as is necessary to verify the reports submitted. It shall be the duty of the person to provide all necessary clearance before entry and not to unnecessarily delay or hinder the Director in carrying out the measuring and sampling. The right of entry shall exist during regular business hours at any time the firm is operating.

In cases where measurements are difficult to make, or the industrial waste composition changes frequently, or representative samples are difficult to get, or where other methods of measurement are necessitated for other sound engineering reasons as determined by the Director, the Director shall have the authority to use such other basis for determining said charges as shall be reliably indicative of volume and BOD and S.S. strength of the particular industrial waste, such as, but not limited to, water purchase or usage, character of products, comparisons between the subject person data and collected data from like person.

All billings for said charges shall be payable within ten (10) days after mailing of billings. All payments made by a person based upon the reports submitted shall become final unless verification is made and notice given by the Director of necessary adjustments within one year of said payment. Underpayment of charges based on errors in users' reports and estimates shall be billed forthwith on ascertainment thereof. Overpayment of charges arising from any cause shall first be applied to unpaid billings and then the excess forthwith refunded.

Section 6. Billing Estimates

The Director shall have the authority to estimate the volume and strength of the industrial waste in the event the person subject to the rate and charges fails to file a timely report as provided in Section 5. The estimates shall be based upon analysis and volumes of a similar installation or the amount of water supplied to the premises by the water utility, the amount of water supplied to the premises by any private sources of water or the volume and analysis as determined by measurements and sample taken by the Director or an estimate determined by the Director by any combination of the foregoing or by any other equitable method. Failure to file written objection to such estimates within ten (10) days after the mailing of written notice thereof to the person liable therefor

shall constitute a waiver of any right to object or appeal the estimates made by the Director pursuant to this section.

Section 7. Contract with Indianapolis Water Company

The Board is authorized to enter into a contract with the Indianapolis Water Company for the use of its services in ascertaining water volume to be utilized in determining charges imposed by this Ordinance and in billing for and collecting such charges and for the payment to it of just and reasonable compensation for its said services.

Section 8. Rules and Regulations

Promptly after the passage of this Ordinance, and from time to time thereafter as may be needed, the Board shall by resolution promulgate rules and regulations necessary to implement and carry out the provisions of this Ordinance and not inconsistent therewith. Before any such rules or regulations shall become effective, the Board shall give notice and hold a public hearing, according to the procedure provided in Chapter 160, Acts of 1953, Section 3, for the establishment of rates and charges.

Section 9. This Ordinance shall be in full force and effect from and after January 1, 1971.

CITY-COUNTY GENERAL ORDINANCE NO. 305, 1970 AS AMENDED

AN ORDINANCE providing for the establishment of rates and charges for the use of the sewerage system by persons discharging a waste which exceeds the average strength and character of sewage normally discharged by a residence, the methods of ascertaining such charges and defining the powers and duties of the Department of Public Works.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY-COUNTY COUNCIL OF THE CITY OF INDIANAPOLIS AND MARION COUNTY, INDIANA:

Section 1. Definitions: The following terms, whenever used or referred to in this ordinance, shall have the following meanings except in those instances where the context clearly indicates otherwise:

- a) "BOD" denoting biochemical oxygen demand) shall mean quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at 20 degrees centigrade expressed in milligrams per liter.
- b) "S.S." (denoting suspected solids) shall mean solids that either float on the surface of or are in suspension in water sewage or other liquids, and which are removable by laboratory filtering.
- c) "Board" shall mean the Board of Public Works of the City of Indianapolis.
- d) "Director" shall mean the Director of the Department of Public Works or his authorized Deputy, agent or representative.
- e) "Industrial Waste" shall mean all the liquid wastes from industrial manufacturing processes, trades or businesses, including institutional and commercial operations or from the development or recovery of any natural resources and shall include the liquid waste contributed by reason of employment, but not the proportion of waste attributable to residential facilities normally occupied by natural persons as a place of abode and not as transient tenants or guests within the above defined entities.
- f) "Sewage normally discharged by a residence" shall mean the liquid waste contributed by a residential living unit and shall not exceed a volume of 10,500 gallons per month, thirty (30) pounds of BOD per month and thirty-five (35) pounds of S.S. per month.
- g) "Person" shall mean as defined in Chapter 167, Acts of 1953: Individuals of either sex; firm; joint ventures; partnerships; corporations; clubs; agencies; instrumentalities; governmental units; the United States of America, the State of Indiana, and all political subdivisions, authorities, districts, departments, agen-

cies, bureaus and instrumentalities thereof; and any, all, and each of them, and all associations or organizations of natural persons, either incorporated or unincorporated, however, operated or named, whether acting by themselves, servants, or fiduciary, and whether or not of a charitable or eleemosynary character.

Section 2. Rates for Industrial Sewage:

There is hereby established an industrial waste rate set forth in Section 3 of this ordinance to be charged to and collected from any person owning or occupying real estate connected to the City of Indianapolis sewerage system which at any time discharges industrial waste into the above said system which exceeds in strength and character sewage normally discharged by a residence. Thee rate shall be applicable when the person is served by the sanitary sewerage system either directly or indirectly if such real estate is subject to the special tax levied by Indianapolis Sanitary District Special Taxing District, or is served by Sewer Service Agreement providing for application of the rate in Section 3 hereof.

Section 3. Rate:

The charges for the transportation, treatment and disposal of the industrial waste shall be determined by the amount and the strength of the waste and at the rates as follows:

Volume Charge

For the calendar year 1971 the following monthly charges are hereby imposed on the monthly volume of fluid input into the sanitary sewerage system, viz.:

10,500 gallons per month (gpm)	— No Charge
10,500 gpm to 35,500 gpm	— 20¢ per 1,000 gpm
35,500 gpm to 2,000,000 gpm	— 16¢ per 1,000 gpm
2,000,000 gpm to 10,000,000 gpm	— 12¢ per 1,000 gpm
10,000,000 gpm to 50,000,000 gpm	— 8¢ per 1,000 gpm
Over 50,000,000 gpm	— 6¢ per 1,000 gpm
Minimum charge on any monthly billing	— \$5.00

The foregoing charges based on volume of fluid input shall be in effect for the calendar year 1971 only and shall cease and ter-

minate on December 31, 1971, except for the collection of such charges accruing during the year 1971.

Strength Charge

For the calendar years 1971, 1972 and 1973, the following monthly charges are hereby imposed on the volume of excess S.S. and/or BOD strength determined by the application of the formula prescribed below, viz:

For the calendar year 1971	\$.0085 per pound, BOD .0122 per pound, S.S.
For the calendar year 1972	\$.01275 per pound, BOD .0183 per pound, S.S.
For the calendar year 1973	\$.017 per pound, BOD .0244 per pound, S.S.

Formula for Determining Excess BOD and S.S. Strength

$$S = Vs \times .00075 \times 8.34 (\$0.0170 (\text{BOD}-350) + \$0.0244 (\text{S.S.}-400))^*$$

S = Strength in dollars

Vs = Sewage volume in hundred cubic feet

.00075 = Hundred cubic feet to million gallons

8.34 = Pounds per gallon of water

\$0.0085 = Unit charge for BOD in dollars per pound for 1971*

BOD = BOD strength index of parts per million by weight

350 = Allowed BOD strength in parts per million by weight

\$0.0122 = Unit charge for suspended solids in dollars per pound for 1971**

S.S. = Suspended solids strength index in parts per million by weight

400 = Allowed S.S. strength in parts per million by weight

*Calculation for 1973

**For years 1972 and 1973 substitute charges above specified for those years

Section 4. Charges:

The computation of the total charges shall be by the application of the volume rate formula and the strength rate formula, to the monthly industrial waste discharges to the Indianapolis Sanitary Sewerage System.

Section 5. Billing and Verification:

Each such person subject to the rate as defined in Section 2 shall by the 10th day of the following month furnish the Director: (1) an estimate of the volume discharged the prior month in any case where the volume of water purchased from the Indianapolis Water Company is either more or less than the volume of liquid industrial waste discharged into such sanitary sewerage system; and (2) an estimate of the representative volume of the strength of the waste, BOD of Suspended Solids thus discharged whether or not such amounts are in excess of the permitted amounts under Section 3 above. All measurements, tests and analyses of the characteristics of such waste shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Sewage" as published jointly by the American Public Health Association and the Water Pollution Control Federation or by other methods generally accepted under established sanitary engineering practices and approved by the Director. The reports submitted shall be subject to verification by the Director but may serve as the basis for billing with all necessary adjustments in the amounts to be made after verification. In the event an analysis and volume of the industrial waste is not furnished to the Director by the aforementioned time, the charges shall be based upon estimates made by the Director, as provided in Section 6.

The Director shall have the right at any reasonable time to enter upon the land of the person to set up such equipment as is necessary to verify the reports submitted. It shall be the duty of the person to provide all necessary clearance before entry and not to unreasonably delay or hinder the Director in carrying out the measuring and sampling.

In cases where measurements are difficult to make, or the industrial waste composition changes frequently, or representative samples are difficult to get or where other methods of measurement are necessitated for other sound engineering reasons as determined by the Director, the Director shall have the authority to use such other basis for determining said charges as shall be reliably indicative of volume and BOD and S.S. strength of the particular industrial waste, such as, but not limited to, water purchase or usage, character of products, comparisons between the subject data and collected data from like persons.

All billings for said charges shall be payable within ten (10)

days after mailing of billings. All payments made by a person based upon the reports submitted shall become final unless verification is made and notice given by the Director of necessary adjustments within one year of said payment. Underpayment of charges based on errors in users' reports and estimates shall be billed forthwith on ascertainment thereof. Overpayment of charges arising from any cause shall first be applied to unpaid billings and then the excess forthwith refunded.

Section 6. Billing Estimates:

The Director shall have the authority to estimate the volume and strength of the industrial waste in the event the persons subject to the rate and charges fails to file a timely report as provided in Section 5. The estimates shall be based upon analyses and volumes of a similar installation or the amount of water supplied to the premises by the water utility, the amount of water supplied to the premises by any private sources of water or the volume and analysis as determined by measurements and sample taken by the Director or an estimate determined by the Director by any combination of the foregoing or by any other equitable method. Failure to file written objection to such estimates within ten (10) days thereafter the mailing of written notice thereof to the person liable therefor shall constitute a waiver of any right to object or appeal the estimates made by the Director pursuant to this section.

Section 7. Contract with Indianapolis Water Company:

The Board is authorized to enter into a contract with the Indianapolis Water Company for the use of its services in ascertaining water volume to be utilized in determining charges imposed by this Ordinance and in billing for and collecting such charges and for the payment to it of just and reasonable compensation for its said services.

Section 8. Appeals to the Board:

Any person may appeal the charges assessed against him to the Board and shall have a hearing upon the following conditions:

1. That the person submits estimates or authorizes the Director to make such estimates.

2. That the person has good cause to believe that the charges assessed are in error.

3. That notice in writing has been given to the Board within one hundred and eighty (180) days of receipt of the charges in question.

The Board is directed to notify the person making the appeal of the time and place when his appeal will be heard. Upon evidence sufficient to the Board submitted at the hearing that the charges are in error, the Board shall make adjustments in the charges. Adjustments may be in the form of a refund or a credit against subsequent assessments of the charges provided for in this ordinance.

Section 9. Rate Review:

The Director shall cause a report to be made concerning the effect of the industrial waste rates and charges on the persons subject thereto. Such report shall include the amount, character and strength of the industrial waste discharged into the sewerage system and accounting of the revenues produced by the industrial waste rates.

The Director shall appoint a committee to aid and assist in the preparation of the report and the committee membership shall include representatives of some of the persons subject to the industrial waste rate. The Director shall submit the report of the Board not later than July 31, 1971.

If the revenues are shown in the report to be excessive, the Board will review the industrial waste rates and cause the necessary decrease in the rates.

Section 10. Rules and Regulations:

Promptly after the passage of this Ordinance, and from time to time thereafter as may be needed, the Board shall by resolution promulgate rules and regulations necessary to implement and carry out the provisions of the Ordinance and not inconsistent therewith. Before any such rules or regulations shall become effective, the Board shall give notice and hold a public hearing, according to the procedure provided in Chapter 160, Acts of 1953, Section 3, for the establishment of rates and charges.

Section 11. Board Charges Not Duplicated:

This ordinance is intended to confirm and effectuate the sewage treatment and disposal charges provided for in the Confirming Rate Resolution for Industrial Waste, Department of Public Works Resolution Number 2023-1970, adopted December 7, 1970, and does not impose any charges duplicating, or in addition to, the identical charges provided for in said Resolution. Said charges shall be payable under said Resolution if it is legally effective to impose said charges and not under the Ordinance. If said Resolution is not legally effective to impose said charges, then said charges are imposed by this Ordinance.

Section 12. This Ordinance shall be in full force and effect from and after its passage, approval by the Mayor, and publication pursuant to law, on and after January 1, 1971.
